Battens

Battens

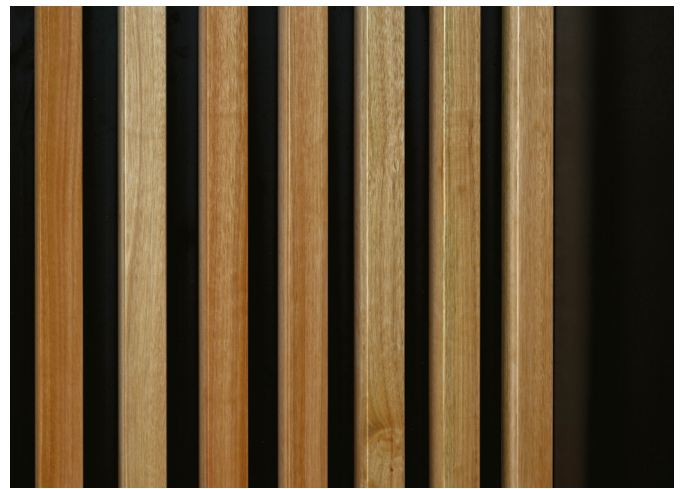

Cusp solid timber battens are manufactured from 100% sustainable plantation-grown eucalypt hardwood. Our Rosetop Oak (Eucalyptus Grandis) DAR battens bring timeless beauty and versatility to your design projects. Our hardwood timber reflects a beautiful blond timber with buttery bronze, and rosy, pink tones. It is native to Australia and is one of the most productive plantation eucalypts when grown in the right environment. As such, it is readily available.

Technical details

Rosetop Oak has a Janka rating of 7.5 (hardness) making it an ideal timber for durability in harsh requirements. It has a class 2 above-ground durability rating (15-40 years). It is malleable. It can be easily sanded and machines well to deliver a smooth finish. It will readily accept paint, stain, polish, and oiling. It is not susceptible to Lyctid Borer and has a BAL (Bushfire resistance rating) of 12.5 - 19 All AS3959 required applications.

Our range includes:

Material:	solid or FJ laminate
Dimensions:	42, 45, 65mm ²
Lengths:	set lengths to 4820mm as standard
Profiles:	square edge or pencil round
