Skirts & Architraves

Skirts & Architraves

Cusp's skirting boards & architraves are manufactured from 100% sustainable plantation-grown eucalypt hardwood, developed with meticulous precision. Our Rosetop Oak material ensures your interior design projects exude enduring quality and natural beauty, providing the perfect finishing touch to your interior spaces. It is native to Australia and is one of the most productive plantation eucalypts when grown in the right environment. As such, it is readily available.

Technical details

Our Rosetop's hardness, with Janka rating of 7.5 displays it's the perfect skirts & architraves for harsh durability requirements. It has a class 2 above-ground durability rating (15-40 years). It can be easily sanded and machines well to deliver a smooth finish. It will readily accept paint, stain, polish, and oiling. It is not susceptible to Lyctid Borer and has a BAL (Bushfire resistance rating) of 12.5 – 19 All AS3959 required applications.

Our range includes:

Dimensions:	45, 65, 85, 120mm
Lengths:	set or custom lengths
End-matching:	available
